Orthographical Innovatious. Many celebrated persons, without entering into an orthographical crusade and revolutionizing the English spelling, like James Elphinstone, a man of considerable learning-who commenced a treatise on that subject thus "To dheze hoo pezes dhe large work, a suc cinct vew of Inglish orthography may be az plezing, as to odders indispensable,"—have, nevertheless, in a quiet way, entered their protest against the fashion of their time. Milton wrote sevran, for instance, therefor, highth, in which last he was followed by Landor, who al so wrote Aristotles on analogy of Empedocles, which is rarely, except in a young ladies' finish ing school, pronounced Empedocle, though he hesitated to write Brute or Lucrece on the analogy of Terence, nor on the analogy of Pliny did he venture to speak of Marius by that name for which Byron confesses his preferential passion. Tenny son has adopted plow. The timid Cowper was bold enough to write Greecian in his translation of Homer, after the fashion of Greece. Larduer wrote claudestin, famin, (in words of this kind the final "e' seems not only useless but injurious.) persue, saie, proface. 'A sample of Mitford's peculiarities is iland, endevor. He considered the "s" in the former word, what indeed it is, a graft of ignorance. Hare, lately followed by Furnival, held it so much of a baseness to spell tashionably that he roundly abused such potbellied words as spelled for spelt in the preterites of weak verbs, and gave us preacht, ctc., with such genitive plurals as geniuses, and threw into the bargain invey and atchieve. He also maintained that mute "e" should be expunged when not softening a preceding consonant, or lengthening a preceding vowel. Byron, finding it impossible to determine but from the context whether "read" be past or present, wrote redde, though he might have written red like led, there being little fear of its being confounded with the color. Thirlwail inveighed against our established system, if the result of custom and accident may be called system, as a mass of anomalies, the growth of ignorance and chance, equally repugnant to good taste and common sense. But notwithstanding the good bishop's tirades, the British public never, never will be slaves, even to an academy. They oling to their old spelling with an impulsion proportioned to its inconvenience, and are as icalous of any encroachment on their prescriptive domain as of a trespass on their right in the public parks. We knew what would become of English loyalty if her most gracious majesty were to take it ioto her royal head to close St. James's. Tyrwhitt, aware of this, contented himself with but few varieties, such as rime, a spelling which derivation, analogy, and ancient use alike support, and coud, which being obvious ly derived from con adds in its present state to the unnecessary anomalies in our language. The obtaining orthography arose out of uniformity probably with would from will and should from shall, and even in these words the "I' has unfortunately long ceased to be pronounced. With regard to rime, it were perhaps better written ryme, to distinguish it from hoarfrest. The Elizabethan impurity of the "h" has been traced to Daniel. It is never found in Milton or Shakespeare. It arose most iske ly from the notion that the word was connect-

DEAD SHOT ON COONS .- A raccoon put in an appearance on Central avenue, near Ailen street, yesterday. A hoodlum saw the coon and w nt for it with a brick. The coon flew from danger, and went for liberty and a tree. He got both. Hood um, not having his climbing trowers on, goes for a pistol and a crowd. The crowd and pistol returned in a few mo ments and took a bird's eye view of the coon, and then held a consultation as to the best mode of capturing him.

ed with rhythm. The learned Trench, in his

"English Past and Present," 1863, curiously

enough discards "v" in ryme as a modern mis spelling. — Cornhill Magazine.

While the crowd was talking coon, a stranger with a taded countenance came along on a slow march and inquired the cause of the gathering of the multitude. One of the hoodiums said, "Look up there." The stranger east his weather eye up the tree and allowed it to wander along the limb until it came to the coon, when it rested. The stranger then elevated his ind x fing r and placed it alongside of his nose. He remained in a brown study about two seconds, when he said, "I'm a dead shot on coons. Bring me a pistol and be ready to sweep up the remains.

The Listol was handed to the stranger. As soon as he took the pistol in his hand he commescel to tremble, and one of the crowd said he was in a splen-tid condition to shake carpets. The stranger gave him a withering glance and then said, "I always cultivate a tremble in my pistel hand when I go shooting coons, so as to scatter the shot and give the coon an easy death." Having expanded on his shooting elequence, he invited the crowd to stand back. They did so. The stranger then cl vated the pistol slowly, but before he got it up as high as his shirt-collar it went off suddeply. Instead of shooting the coop, he placed the entire charge of the pistol in the right arm of Maurice Fitzgerald, who resides at No. 429 Central avenue.

As soon as the stranger discovered the coon did not drop from the tree, he dropped from the view suddenly, and was last seen coming down Washington avenue looking for something to quiet his nerves -Albany Post.
